

Please don't displace K-Love by an LPFM broadcaster. I enjoy being able to listen in my home and car to the positive and encouraging message that is throughout the music that they play. K-love is valued by so many of my friends here in Arkansas as well as in Texas(that is where I heard about K-Love). I was so uplifted and encouraged that I came home and looked up that stations here in my area to be able to listen. Please don't take away the hope that I have for their message to be heard by all.
